[college.stpiers.org.uk](http://college.stpiers.org.uk)

At St Piers School and College we have considerable expertise in educating children, and young people with autism, epilepsy and a range of other conditions.

We offer students either a day or residential placement.

We have a multi-disciplinary approach which means that teachers, medical, therapy and residential care staff work closely together. The aim is to provide a tailored package that enables each individual to develop their skills and increase their independence.

Students have access to a wide range of facilities including our farm and horticultural centre.

Sixth formers and college students can attend local mainstream colleges for additional learning and have the opportunity to undertake work experience with local employers.

We look forward to meeting you so book your place on one of our open days. For further information visit our websites:
